Test Case ID#: Election_UpdateBallotCurrDis Test Description: This test will test that if the method accurately changes which candidate the ballot votes to the next candidate in order.	Name(s) of Testers: Emma Spindler
	The tests are stored in the election unittest.cpp file.
	The methods used are UpdateBallotCurrDis, AddCandidate,
Automated: yes_/no	SetCurrDis, AddBallot, SetNumberOfCandidates
Results: Pass   Fail	

# **Preconditions for Test:**

- election.h and election.cpp must compile
- driver.h and driver.cpp must compile
- report.h and report.cpp must compile
- ballot.h and ballot.cpp must compile
- candidate.h and candidate.cpp must compile
- the audit and media report must be already opened

Step	Test Step	Test	Expected	Actual	
#	Description	Data	Result	Result	Notes
1	Testing the UpdateBallotCurrDis method	Ballot	-1	-1	
1 2	Testing the UpdateBallotCurrDis method	Ballot	-1	-1	
3	Testing the UpdateBallotCurrDis method	Ballot	0	0	

# **Post condition(s) for Test:**

• Changed which candidate the ballot votes to the next candidate in order.

Project Name: Project 1: Voting System	<b>Team# 11</b>		
Test Stage: Unit _✓_ System	Test Date: 3-14-2021		
Test Case ID#: Election_Find_Candidate_To_Remove Test Description: This test will test that if the FindCandidateToRemove method accurately finds the index of the candidate that has the lowest amount of votes.	Name(s) of Testers: Emma Spindler		
Automated: yes ✓ no	The tests are stored in the election_unittest.cpp file. The methods used are FindCandidateToRemove, SetNumberOfCandidates, AddCandidate, IncreaseNumberOfCandidates, SetVotesForParties, GetName, AddParty		
Results: Pass / Fail			
Preconditions for Test:      election.h and election.cpp must compile     driver.h and driver.cpp must compile     report.h and report.cpp must compile     ballot.h and ballot.cpp must compile     candidate.h and candidate.cpp must compile     the audit and media report must be already opened			

Step	Test Step	Test	Expected	Actual	
#	Description	Data	Result	Result	Notes
1 1	Testing the FindCandidateToRemove method	none	0	0	
1 7	Testing the FindCandidateToRemove method	none	0	0	
1 2	Testing the FindCandidateToRemove method	none	0	0	

• Candidate is removed correctly

Team# 11 Test Date: 3-14-2021
Name(s) of Testers: Emma Spindler
The tests are stored in the election_unittest.cpp file. The methods used are RedistributeBallots, AddCandidate, SetCurrDis, UpdateBallotCurrDis, SetNumberCandidates, IncreaseNumberOfCandidates, GetBallotListSize, GetName
,

Step	Test Step	Test	Expected	Actual	
#	Description	Data	Result	Result	Notes
1	Testing the RedistrubteBallot method	1	1	1	
2	Testing the RedistrubteBallot method	1	1	1	

Post condition(s) for Test:

• Ballots are redistributed among remaining candidates.
